Weekly Standup Meeting

Project Name: Family Password Manager	Group Name: Coderaisers
Sprint Number: 3	Date and Time: 10/03/26

List of attendance:

- Name: Sameer Attended? YES
- Name: Oak Attended? YES
- Name: Sabin Attended? YES
- Name: Dipsan Attended? YES
- Name: Vyshu Attended? YES

Project Progress:

Team Member (1): Sameer

1. **What did you accomplish last week?**
   Answer: Worked on documentation creating the template in which all group members will follow.

2. **What will you do this week?**
   Answer: Ask the developers about certain parts of the document and closely work with them in terms of what to be written up (e.g. what searching algorithm we will use, the data structure we have selected etc.).

3. **What obstacles are impeding your progress?**
   Answer: Trying to decide which tasks are most suitable for each group member and how much time should be spent to be most efficient in terms of completion.

Team Member (2): Oak:

1. **What did you accomplish last week?**
   Answer: Suggested which technologies to use for development and testing. Just so it is easier for Sabin to be on the same page as me.

2. **What will you do this week?**
   Answer: Get started with sketching the algorithms as well as the database structure so it is clear how we will approach this.

3. **What obstacles are impeding your progress?**
   Answer: Picking the right technologies/applications for the database and testing as well.

Team Member (3): Sabin:

1. **What did you accomplish last week?**
   Answer: Suggested which methodology to use to be efficient in how we complete our project.

2. **What will you do this week?**
   Answer: Support and suggest which tasks can be accomplished within next week. Remind everyone of tasks to be completed and how it should be completed.

3. **What obstacles are impeding your progress?**
   Answer: Some technologies are not compatible with my Mac therefore I will find work arounds to better track and understand the progress being made in the group.

Team Member (4): Dipsan:

1. **What did you accomplish last week?**
   Answer: Got familiar with using GitHub as well as the technology so far, we have decided to use.

2. **What will you do this week?**
   Answer: This week I will work on collaborating on the same git as Oak and get familiar with that collaboration process.

3. **What obstacles are impeding your progress?**
   Answer: The collaborative aspect but this will be mended as I mentioned before where I will get familiar with the collaborative process alongside Oak.

Team Member (5): Vyshu:

1. **What did you accomplish last week?**
   Answer: Getting familiar with the technologies that will be used within the project as well as having my role in the project explained.

2. **What will you do this week?**
   Answer: To distinguish what technology I will use to test the input/output of data in the database as well as the frontend

3. **What obstacles are impeding your progress?**
   Answer: Learning the application that I will be using to test the data and outputs, will need to get familiar with this.
