Daily Standup Meeting

Project Name: Family Password Manager	Group Name: Coderaisers
Sprint Number: 1	Date and Time: 17/02/26

List of attendance:

- Name: Sameer Attended? YES
- Name: Oak Attended? YES
- Name: Sabin Attended? YES
- Name: Dipsan Attended? YES
- Name: Robert Attended? NO

Project Progress:

Team Member (1): Sameer

1. **What did you accomplish last week?**
   Answer: Created use cases, requirements and recommendation on what searching algorithm to utilise.

2. **What will you do this week?**
   Answer: Delegate tasks for each group member, make it clear to everyone what our Family Password Manager application is and how we should approach trying to create our algorithms.

3. **What obstacles are impeding your progress?**
   Answer: Trying to decide which tasks are most suitable for each group member and how much time should be spent in order to be most efficient in terms of completion.

Team Member (2): Oak:

1. **What did you accomplish last week?**
   Answer: Suggested which technologies to use for development and testing. Just so it is easier for Sabin to be on the same page as me.

2. **What will you do this week?**
   Answer: Get started with sketching the algorithms as well as the database structure so it is clear how we will approach this.

3. **What obstacles are impeding your progress?**
   Answer: Picking the right technologies/applications for the database and testing as well.

Team Member (3): Sabin:

1. **What did you accomplish last week?**
   Answer: Suggested which methodology to use to be efficient in how we complete our project.

2. **What will you do this week?**
   Answer: Support and suggest which tasks can be accomplished within next week. Remind everyone of tasks to be completed and how it should be completed.

3. **What obstacles are impeding your progress?**
   Answer: Some technologies are not compatible with my Mac therefore I will find work arounds to better track and understand the progress being made in the group.

Team Member (4): Dipsan:

1. **What did you accomplish last week?**
   Answer: Got familiar with using GitHub as well as the technology so far, we have decided to use.

2. **What will you do this week?**
   Answer: This week I will work on collaborating on the same git as Oak and get familiar with that collaboration process.

3. **What obstacles are impeding your progress?**
   Answer: At the moment, the collaborative aspect but this will be mended as I mentioned before where I will get familiar with the collaborative process along side Oak.
