Weekly Standup Meeting

Project Name: Family Password Manager	Group Name: Coderaisers
Sprint Number: 5	Date and Time: 24/03/26

List of attendance:

- Name: Sameer Attended? YES
- Name: Oak Attended? YES
- Name: Sabin Attended? YES
- Name: Dipsan Attended? YES
- Name: Vyshu Attended? YES

Project Progress:

Team Member (1): Sameer

1. **What did you accomplish last week?**
   Answer: Worked on documentation following up from the meeting discussion.

2. **What will you do this week?**
   Answer: Discussed with Oak, developer, which technology will be used for the web API and if it is most appropriate for the users or not.

3. **What obstacles are impeding your progress?**
   Answer: Figuring out which would be best for the users and based on the other group members' opinions.

Team Member (2): Oak:

1. **What did you accomplish last week?**
   Answer: Worked on the web API for the application.

2. **What will you do this week?**
   Answer: To further work on the web API in both SQL and Entity Framework core.

3. **What obstacles are impeding your progress?**
   Answer: Figuring out how to best apply all this with the frontend of the application with the 2nd developer.

Team Member (3): Sabin:

1. **What did you accomplish last week?**
   Answer: Created a small demo of the search part of the application.

2. **What will you do this week?**
   Answer: Get feedback on whether this should be used in the application and what can improve, if not, then work on what other way I can approach this.

3. **What obstacles are impeding your progress?**
   Answer: Need to figure out before I write the final code, how I can connect this code with the SQL and technologies/code used by other group members.

Team Member (4): Dipsan:

1. **What did you accomplish last week?**
   Answer: From previous delegation of tasks, got feedback and some results (which provided group relief and ideas of what to do next).

2. **What will you do this week?**
   Answer: Delegate more tasks to the group members based on discussion with the group leader

3. **What obstacles are impeding your progress?**
   Answer: Need to stay on top of these tasks and to catchup with group members as often as possible to ensure we are on task.

Team Member (5): Vyshu:

1. **What did you accomplish last week?**
   Answer: Picked a few technologies to use for testing.

2. **What will you do this week?**
   Answer: Discuss with group members on which to use for testing.

3. **What obstacles are impeding your progress?**
   Answer: Once chosen, need to get familiar on how I will use the app to do the testing.
